

Bilag til analyserapport vedrørende

Behandling af underarmsfrakturer hos børn

Sundhedsvæsenets
Kvalitetsinstitut

Bilag

Bilag er et tillæg til rapporten Behandlingsrådets større analyse vedr. [tekst], som kan ses på Behandlingsrådets hjemmeside.

Oplysninger om dokumentet

Godkendelsesdato:	Dokumentnummer:	Versionsnummer:
27.03.2025	9860	1.0

Versionsnr.:	Dato:	Ændring:
1.0	27.03.2025	Godkendt af Sundhedsvæsenets Kvalitetsinstitut

Bilag til organisatoriske implikationer

2.1 Interviewguide

Til besvarelse af undersøgelsesspørgsmål 3 er anvendt ekspertudtalelser fra interviewundersøgelse med to klinikere. Interviewet var semistruktureret, og tog udgangspunkt i nedenstående interviewguide.

Tabel 6 – Interviewguide for interviews med informant 1 og 2

Briefing af informant (5 min)		
Præsentation af Behandlingsrådet	Velkommen til. Tak fordi du har afsat tid af til at tale med os, i dag. I Behandlingsrådet er vi i gang med at udarbejde en analyse af behandling af underarmsfrakturer hos børn. Analysen har til formål at undersøge både eksisterende behandlingsmuligheder, herunder behandling i generel anæstesi med og uden fiksering men også potentialerne i behandling af frakturer i moderat anæstesi, som det ses i andre landes akutmodtagelser. På baggrund af analysen udarbejder vores råd en national anbefaling om behandling af underarmsfrakturer hos børn.	
Formål	Dette interview, vil sammen med et andet interview og en række studier fungere som datagrundlaget for belysningen af eventuelle organisatoriske forhold vedr. behandling af underarmsfrakturer hos børn. Udover det, afdækker analysen klinisk effekt og sikkerhed, et patientperspektivet og sundhedsøkonomi. I løbet af den næste times tid er vi blandt andet interesserede i dine oplevelser/erfaringer ift. særligt behandling i moderat sedation ift. behandlingsforløb, personale, kompetencer, faciliteter osv. Og til sidst vil min kollega Catherina gerne spørge ind til lidt om hvad dit indtryk er af, hvordan børn og pårørende oplever behandling af frakturer.	
Samtykke	For at vi ikke skal fokusere på at notere undervejs, optager vi interviewet. For en god ordens skyld, vil vi gerne have din tilkendegivelse af, at det er okay (igangsæt optager og transskribering). Dine udsagn vil indgå på anonymiseret vis i analyserapporten, som offentliggøres på vores hjemmeside i starten af næste år. Dette er ligeledes udfoldet i samtykkeerklæringen, som du har underskrevet per mail.	
Interviewguide (10 min)		
Tema	Spørgsmål	Uddybende spørgsmål
Præsentation af informant	Hvis ikke du har nogle spørgsmål, så tænkte jeg om du ikke vil starte med at præsentere dig selv?	

	Hvad er din erfaring med behandling af underarmsfrakturer hos børn i akutmodtagelsen/moderat sedation?	
Behandlingsforløb	Kan du beskrive forløbet for en patient, hvis frakturbehandling blev varetaget i akutmodtagelsen? Fra de ankommer til de går igen?	Hvad med det efterfølgende kontrolforløb, hvordan ser det ud?
	Vil du ligeledes beskrive, hvordan patientforløbet ser ud i din region, for standardbehandlingen af underarmsfrakturer hos børn?	

De næste spørgsmål er inddelt i fire overordnede temaer, ud fra hvad vi har identificeret i en række internationale studier, som undersøger forskellige områder inden for behandling af underarmsfrakturer hos børn i akutmodtagelsen. Det første tema som vi kommer igennem, vedrører personalets kompetencer.

Tema 1 – personalets kompetencer (10 min)	Hvilke personalegrupper har varetaget behandlingen, når den blev varetaget i akutmodtagelsen?	Akutlæger eller ortopædkirurger?
		Til stede i akutmodtagelsen eller kaldt ned efter behov?
		Hvor meget personale er nødvendigt?
	Hvad er det for nogle kompetencer som du vurderer, er nødvendige for at varetage behandlingen i akutmodtagelsen?? (Sedation, reponering, gips mv.)	Hvilke af disse kompetencer eksisterer i forvejen i akutmodtagelsen? Hvad skal der til for at tilvejebringe disse kompetencer i akutmodtagelsen? Kan kompetencerne vedligeholdes med den udskiftning der ses i akutmodtagelsen?

Det næste tema drejer sig om kapacitet og ressourcer, særligt ift. operationskapacitet.

Tema 2 – Kapacitet og ressourcer (10)	Hvilken betydning kan det have for OP-kapacitet på hospitalet generelt at foretage behandlingen i akutmodtagelsen?	
---------------------------------------	--	--

Det næste tema omhandler de fysiske rammer, der faciliterer behandlingen inden vi kort opsummerer.

Tema 3 – fysiske rammer (10)	Hvilke fysiske faciliteter er nødvendige for at varetage behandlingen i akutmodtagelsen?	Hvor meget af dette var/er i forvejen tilgængeligt i akutmodtagelsen/andre steder på hospitalet?
		Kan disse anvendes til andre procedurer? Kan andre procedurer på lignende vis

varetages i akutmodtagelsen med disse faciliteter?

Opsummering Hvad oplever du er hhv. fordele og ulemper ved denne type behandling?

Sidste tema, inden vi har nogle opsummerende spørgsmål, omhandler patientens og de pårørendes oplevelse af behandlingsforløbet

Tema 4 – Oplevelser af behandlingsforløb (10 min) Hvad tænker du præger forældre og patienters oplevelse af behandlingsforløbet mest, når behandlingen foretages i akutmodtagelsen? Oplevede fordele og ulemper?

Og ligeledes, hvad tænker du præger forældre og patienters oplevelse af behandlingsforløbet mest i forbindelse med standardbehandlingen? Oplevede fordele og ulemper?
Eventuelle præferencer for det ene eller det andet?

Debriefing (5)

Tilføjelser Vi er ved at være færdige med interviewet. Har du noget at tilføje, som vi ikke er kommet omkring?

Spørgsmål Hvis du har spørgsmål efterfølgende, er I velkomne til at kontakte os på mail eller telefon.

Afslutning Når analyserapporten er færdig, kan du læse den på vores hjemmeside.

Tusind tak fordi du ville deltage.

3 Bilag til patientperspektivet

3.1 Vurdering af evidenskvalitet

Tabel 7 – Appraisal tool for Cross-Sectorial Studies (AXIS). Af den systematiske litteratursøgning på Patientperspektivet blev tværnsitsstudier inkluderet. Kvaliteten af studierne er vurderet ved hjælp af AXIS.

Sektion	Spørgsmål	Delgove et al., 2019	Koris et al., 2022	Kurien et al., 2016	Sharieff et al., 2007	Wiik et al., 2018	Al-Robeye et al., 2020	Fortier et al., 2009	Perrott et al., 2018	Wollin et al., 2003
Introduction	Were the aims/objectives of the study clear?	Yes	Yes	No	Yes	Yes	Yes	Yes	Yes	Yes
Methods	Was the study design appropriate for the states aim(s)?	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
	Was the sample size justified?	No	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
	Was the target/reference population clearly defined?	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
	Was the sample frame taken from an appropriate population base so that it closely represented the target/reference	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes

	population under investigation?									
	Was the selection process likely to select subjects/participants that were representative of the target/reference population under investigation?	Don't know	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
	Were measures undertaken to address and categorize non-responders?	No	Yes	No	No	No	No	No	No	No
	Were the risk factor and outcome variables measured appropriate to the aim(s) of the study?	Yes	Yes	Don't know	Yes	Yes	Yes	Yes	Yes	Yes
	Were the risk factor and outcome variables measured correctly using instruments/measurements that had been trialed, piloted or published previously?	Yes	Yes	Don't know	No	Don't know	Don't know	Yes	Yes	Yes
	Is it clear what was used to determine statistical significance and/or precision estimates? (e.g. p-values, confidence intervals)	No	No	No	No	Yes	No	Yes	Yes	Yes
	Were the methods (including statistical methods)	Yes	No	Yes	Yes	Yes	Yes	Yes	Yes	Yes

	sufficiently described to enable them to be repeated?									
Results	Were the basic data adequately described?	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
	Does the response rate raise concerns about non-response bias?	No	No	No	No	No	No	No	No	No
	If appropriate, was information about non-responders described?	Yes	Yes	No	No	No	No	No	Yes	No
	Were the results internally consistent?	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
	Were the results presented for all the analysis described in the methods?	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Discussion	Were the authors' discussions and conclusion justified by the results?	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
	Were the limitations of the study discussed?	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Other	Were there any funding sources or conflicts of interest that may affect the authors' interpretation of the results?	No	No	No	No	No	No	No	No	No
	Was ethical approval or consent of participants attained?	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes

Tabel 8 – Critical Appraisal Skills Programme (CASP). Af den systematiske litteratursøgning på Patientpektivet, blev fire kvalitative interviewstudier inkluderet. Kvaliteten af disse interviewstudier er vurderet ved hjælp af CASP.

Sektion	Spørgsmål	Phelps et al., 2022	Heath et al., 2023	Pestana-Santos et al. 2022	Thomasgaard et al., 2021
Section A: Are the results valid?	Was there a clear statement of the aims of the research?	Yes	Yes	Yes	Yes
	Is a qualitative methodology appropriate?	Yes	Yes	Yes	Yes
	Was the research design appropriate to address the aims of the research?	Yes	Yes	Yes	Yes
	Was the recruitment strategy appropriate to the aims of the research?	Yes	Yes	Yes	Yes
	Was the data collected in a way that addressed the research issue?	Yes	Yes	Yes	Yes
	Has the relationship between researcher and participants been adequately considered?	Can't tell	Can't tell	No	Can't tell
Section B: What are the results?	Have ethical issues been taken into consideration?	Yes	Yes	Can't tell	Yes
	Was the data analysis sufficiently rigorous?	Yes	Yes	Yes	Yes
	Is there a clear statement of findings?	Yes	Yes	Yes	Yes
Section C: Will the results help locally?	How valuable is the research?	Very	Very	Very	Very
